5. Filling Guide

1. Fill the tank with your cannabis oil.

Gently put the syringe between the airway and the outer wall of the oil tank and fill the tank with oil at a proper speed.

▲ *Do not allow oil to enter the center airway!*

Kushcart Dyno Box Vape

▲ *Do not top off the tank with oil.*

▲ *While filling oil, avoid dropping oil onto the shell to prevent chemical reactions. If so, please wipe it off immediately.*

2. Press on the mouthpiece immediately after filling!

▲ *Failure to insert the mouthpiece immediately after filling may cause leakage.*

▲ *Cap the product with a hand punch or a professional capping machine.*

6. Storage

1. The storage temperature is $23 \pm 5^{\circ}\text{C}$ and the humidity is $50 \pm 10\%$ RH.
2. Place in a cool, dark and ventilated place.
3. Keep the disposable sealed storage and avoid direct sunlight.
4. The storage period should not be too long, so as not to exceed the shelf life of oil.

7. Notification

1. Pay attention to the shelf life of filled oil.
2. Handle the product with care. Do not throw, or twist the product.
