

User Manual

SLIK Box Vape

2.0ML | 3.0ML

Features

- Volume: 2.0ml / 3.0ml
- Battery Capacity: 400mAh
- Dimension: 28*15*90mm
- Charging: Type-C
- Housing: Stainless Steel
- Heavy Metal Free
- Abundant vapor
- Central Post Free
- Cotton & Glue Free
- Easy One Step Capping
- Duo Channel Avoid Clogged
- Designed For Viscosities
- Extractions
- No-Oil Waste: V-Shape

How to use

Press the button five times to turn on and off the device, the power on LED screen will display, and the power off screen will turn off; The default startup mode is in H mode. Press the button three times to shift gears, corresponding to the digital tubes H-M-L respectively; Press the button twice to preheat, output $2.8V \pm 0.1V$ for 3 seconds, and run the 100% light for 3 seconds.

Function

When smoking, simply press the button to start smoking. When pressing the button to smoke, the battery level will be displayed. Stop smoking and delay for 1 second before turning off.

When smoking for more than 10 seconds \pm 10%, turn off the output and flash the full screen 3 times.

When the battery voltage is below 3.2V, output is prohibited and the full screen flashes 4 times.

Technical Parameter

Battery	400mAh, 3.0A
Dimension	28.0mm*15.0mm*90.0mm
Launch Mode	Button
Capacity	3.0ml
Materials	Shell: SUS201, atomization core: Mesh ceramic core
Working Procedure	Baking paint with silk screen printing
Interface	Type C
Color	Black and white, wood grain color
Resistance Value Range	400-700Pa(17.5ml/s)
Oil Window	Customized Available
Voltage Ranger	Adjustable voltage, constant voltage output 3.6V-3.2V-3.0V
Resistance Range	Mesh 2.0 Ω
Indicator LED	LED digital display screen
Ignition indicator	White light on during suction
Charging Indicator	YES
Circuit Protection	Low Voltage Protection, Short circuit protection, over suction protection
Over Charging Protection	YES
Function Instruction	Low voltage/short circuit/over suction protection, within 2.5 seconds, turn on/off the machine five times, adjust the voltage three times, 3.6V-3.2V-3.0V, preheat twice, output 2.8V, for 3 seconds. Short press to display battery level. When pressing suction, LED light display, constantly on. Stop suction and delay for 1 second to turn off.

FILLING INSTRUCTION

1 Insert needle Into the big filling hole.

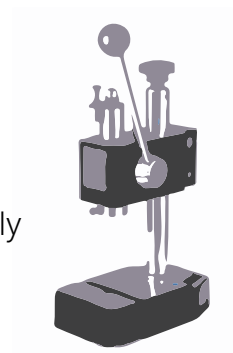

Caution:

1. Warm up the oil and maintain the temperature precisery at 90 °F -130 °F /32 °C -55 °C
2. Do not overfill or allow oil to enter the side two air holes.

2 Capping the mouthpiece vertically within 1 minute after filling.

Caution:

1. Fill first, seal first. Please make sure the mouthpiece in fully sealed.
2. Failure to cap the mouthpiece immediately after filling may cause leakage.

3 Allow your disposable to stand for at least 24 hours or more and vape.

Caution:

During this time, oil is priming the atomizer. The rate that the atomizer saturates is dependent upon the viscosity of the oil. More viscous oils will require more time.

STORAGE

1. The storage temperature is 23±5 °C and the humidity is 50±10% RH.
2. Place in a cool, dark and ventilated place.
3. Keep the disposable sealed storage and avoid direct sunlight.

NOTIFICATION

1. Pay attention to the shelf life of filled oil.
2. Please fully charge the device before use.
3. Please keep the product out of the reach of children after use.
